

## Explorers and Polar Regions Workshop

To enhance our 'Where in the world am I?' topic we have arranged a visit from Dan Tastic Education on Thursday 10<sup>th</sup> October. He will be teaching us in an interactive and engaging way, using a range of artefacts and activities for children to view, touch and interact with. We will be learning about different explorers, the polar regions and animals who live there, as well as continents, countries and compasses.

We ask for a subsidised voluntary contribution of £8 per child payable via school money towards the cost. The rest will be paid from school funds.

We are looking forward to having a hands on experience which improves our knowledge of exploring the world, particularly the polar regions.
