14th July 2021

Dear Parents/Carers,

September Return

As you are no doubt aware, the government have advised that the country will move to Step 4 of the Road Map from Monday 19th July. New guidance has been issued for schools from September around disbanding bubbles, under 18s do not need to isolate unless they are tested and positive.

Our plan is to move back to 'normal' school hours and entry and exit to school. Children will be able to arrive onsite, using any of the gates, from 8.40am. Children will access their classrooms from the external doors, these will be open from 8.50am – 9am. This will be the same for home time; children will be released to the adults collecting them from their classroom doors at 3pm for Year 1 & Year 2.

Arrangements for Reception children and Early Bird and After School children have already been shared with parents/carers.

If you are unsure of where your child's classroom is, there will be additional staff out on the first few mornings to point you in the right direction.

This comes with a warning that it is very much subject to change, dependent on COVID over the summer and any further advice given to schools. The Local Authority and Warwickshire Public Health will be working together to provide guidance for schools. If this means our plans have to change we will send revised information towards the end of the summer holiday.

Yours sincerely,

Headteacher
